Category: Toys

Product: Swing set

Brand: Unknown

Name: Zosia

Type/number of model:
Product No: 232744

Batch number/Barcode:
5908283360109

OECD Portal Category:
86000000 - Toys / Games

Description: Swing set with a wooden structure

Injuries,
Strangulation,
Entrapment

The openings formed between the ladder structure and the slide edge could lead to entrapment of the head, neck and body and the presence of rotating parts may pose a risk of strangulation.

Compulsory measures:
Recall of the product from end users

and a swing and slide.

Country of origin: Poland

Moreover, the positioning of the horizontal T-bar and other swing elements, which are placed too close to adjacent structures, could cause the child to collide with the ladder or wooden frame. The clearance between the swing and the ground is not sufficient for older children to swing safely and the large distance between the rungs could cause the child to fall from the ladder.

The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-8.

Product: High chair

Brand: Tarmeko

Name: Nino

Type/number of model:
Model: Nino

Batch number/Barcode:
Unknown

OECD Portal Category:
54000000 - Baby Care

Description: High chair made of birch veneer and plywood. The seat and footrest can be adjusted into three different positions. The chair has an adjustable safety bar which can eventually be removed, as the child grows. Dimensions of the chair are 44 x 80 x 62cm, weight 5.8 kg. The high chair is intended for babies from approximately six months of age upwards. The chair is packed in a cardboard box.

Country of origin:
Estonia

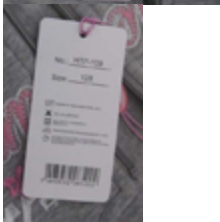

Injuries

The restraint system for the child is inadequate and the child could fall from the high chair. The space between the backrest and the seating poses a risk of entrapment and bruising of fingers and other parts of the body.

The product does not comply with the relevant European standard EN 14988.
