Multilateral Agreement M287

Dear Sir or Madam,

M222 concerning carriage of certain wastes containing dangerous goods expires on 1 August 2015.

Austria now initiates a follow up with these changes:

- By derogation from special provision 663, UN 3509 packagings, discarded, empty, uncleaned, may contain residues, which remain in the packaging after proper discharging and which cannot be removed without major effort.
- For the carriage in bulk of UN 3509 packagings, discarded, empty, uncleaned, may be carried under the terms of BK1 or VC1 instead of BK2 or VC2, provided all the other conditions remain the same. In no case the environmentally hazardous substance mark is required.
- Transitional provision 1.6.1.30 applies without time limit

If you agree to the enclosed we would appreciate if you would countersign and return a copy of the agreement to this office and send another copy to the UNECE Transport Secretariat.

Yours sincerely,

Encl.
