Alert number: A12/01371/20

Product: Popcorn Maker

Name:

Risk type: Chemical, Environment

Category: Electrical appliances and equipment

Brand: Melissa

Type / number of model: AK-D021

Type of alert: Products with serious risks

The plastic "feet" on the popcorn maker contain an excessive amount of lead (measured value up to 0,17-0,2% by weight). The cable insulation contains an excessive amount of short chain chlorinated paraffins (SCCPs) (measured value up to 0,562-0,580% by weight). Lead poses a risk to the environment and is harmful to human health, as it accumulates in the body, can cause developmental neurotoxicity and may affect breast-fed or unborn children. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. / The product does not comply with the Persistent Organic Pollutants (POPs) Regulation and with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).
