Product

Children's motorcycle helmet

Risk type

Injuries

The "8" ring allowing for the adjustable strap to be maintained can break easily, causing the strap to slip in the buckle of the restraint system. The lack of helmet retention can reduce its effectiveness in the event of impact, causing injuries to the head.

The product does not comply with the requirements of the Regulation ECE 22-05.

Category

Protective equipment

Type

Consumer

Description

Children's motorcycle helmet without maxilla protection, in various colours: navy blue, red and light grey.

Packaging description

The product is sold in a black cardboard box.
