

Alert number **[A12/00130/22](#)**

Product **Bath toy**

Risk type **Choking
Damage to hearing**

The sound pressure level is too high (measured peak value: 111,5 dB). This could lead to temporary loss of hearing, when the product is used. Furthermore, some parts of the toy protrude. If a child who is too young to sit up unaided puts the toy in the mouth, the protruding parts could obstruct the airways, causing choking.

The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.

Product **Toy bow and arrows**

Risk type **Chemical Suffocation**

The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), diisobutyl phthalate (DIBP) and dibutyl phthalate (DBP)(measured values up to 0.97 %, 0.27% and 5.7% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. Furthermore, the plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover the mouth and nose, causing the child to suffocate.

The product does not comply with the REACH Regulation, the requirements of the Toy Safety Directive and with the European standard EN 71-1.

Category **Toys**

Type **Consumer**

Description **Plastic Bow with 4 arrows containing suction cups. The product is sold online, in particular via Joom.**

Packaging description **The packaging bag (dimensions: 610 mm x 150 mm) of the article has an average film thickness of 0.0297 mm.**

Product **Bath toy**

Risk type **Choking
Suffocation**

Some parts of the toy protrude. If a child who is too young to sit up unaided puts the toy in the mouth, the protruding parts could obstruct the airways, causing choking. Furthermore, the plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate.

The product does not comply with the requirements of the Toy Safety Directive and with the European standard EN 71-1.

Category **Toys**

Product **Toy gun**

Corrigendum

Notification A12/00114/22 has been updated at the request of the notifying authority with additional information on the risk description.

Risk type

**Chemical
Environment**

The product contains an excessive amount of organic tin (TBT) (measured values up to 71 mg/kg). The product also contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), diisobutyl phthalate (DIBP) and Diisononyl phthalate (DINP) (measured values up to 2,1%, 11% , 0,58% and 1,3% by weight, respectively). TBT is potentially persistent, bioaccumulative and toxic for the environment. These phthalates may harm the health of children, causing possible damage to their reproductive system and liver.

The product does not comply with the REACH Regulation and the European standard EN 71-3.

Product **Passenger car**

Risk type **Injuries**

The connection of the power supply to the electrical power steering may have been contaminated by heat-activated adhesive. Ageing of this adhesive could lead to a loss of clamping force and thus to a loose connection that may lead to interruption of the power supply. As a result, the electrical power steering could fail spontaneously, even while the vehicle is in motion, increasing the risk of an accident.

The product does not comply with the requirements laid down in the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Product **Passenger car**

Risk type **Fire**

The electrical supply to and software for the additional heating is not correctly designed and the heater can shut off too soon when the vehicle is switched off. This can lead to fuel remaining in the heater, producing smoke and fuel leaks increasing the risk of fire.

The product does not comply with the requirements laid down in the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Category **Motor vehicles**

Type **Consumer**

Product

Electric chainsaw

Risk type

**Cuts
Injuries**

The front handle is placed above the motor body and attached directly to the side of the body above the guide axis. This solution causes the lack of the required clearance between the handle and the side of the motor body and makes it impossible to hold the saw securely when it is controlled during horizontal cutting. The user may suffer cuts or injuries.

The product does not comply with the requirements of the Machinery Directive and the relevant European Standard EN 60745-2-13.

Product

Particle filter mask

Risk type

Health risk / other

The particle/filter retention of the material is insufficient (measured values: as low as 59%). Furthermore, the total filtration capacity of the mask is insufficient (measured mean values: as low as 71%). Consequently, the product does not fulfil the health and safety requirements; thus, even if combined with other recommended measures, it may not properly protect.

The product does not comply with the Personal Protective Equipment (PPE) Regulation and with the relevant European standard EN 149.

Product

Children's bath thermometer

Risk type

Microbiological

Water remains in the thermometer and is not drained away. The product is attractive to children: during playing, as the water is not properly drained, there is a risk of the spread of bacteria and of contamination if the child puts the product in the mouth.

The product does not comply with the requirements of the General Product Safety Directive and with the European standards EN 62115 and 71-3.

Product **Bath toy**

Risk type **Choking
Damage to hearing**

The sound pressure level is too high (measured peak value: 115,7 dB). This could lead to temporary loss of hearing, when the product is used. Furthermore, some parts of the toy protrude. If a child who is too young to sit up unaided puts the toy in the mouth, the protruding parts could obstruct the airways, causing choking.

The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.
