Product **Ski boot**

Risk type **Injuries**

A carbon cuff can crack or break if the flaps of the cuff are bent too far. Further damage may occur during continuous use which can lead to a complete breakage of the cuff which would put the wearer at risk of falling and/or injury.

The product does not comply with the requirements of the General Product Safety Directive.

Category **Hobby/sports equipment**

Type **Consumer**

Description **Ski boot for touring with carbon cuff, supplied from October 2021 onwards. Part of the TRAVERS series, sizes 24.5 - 28.5.**

Product

Plastic bath toy

Risk type

**Chemical
Choking**

Small parts (the cap on the tube) can easily detach from the toy in two halves. A small child may put them in the mouth and choke. The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values 0.58% and 10% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system.

The product does not comply with the REACH Regulation.

Product

Lighting chain

Risk type

**Burns
Electric shock
Fire**

The cable is not properly anchored and is too thin. The accessible wires have inadequate insulation. The product is not protected against moisture despite being recommended for outdoor use (water could penetrate the product). The cable could overheat, leading to burns or fire. The user could touch accessible live parts, which may cause an electric shock.

The product does not comply with the requirements of the Low Voltage Directive nor the relevant European standard EN 60598.
