Product

Disposable electronic cigarette

Risk type

Chemical

The product volume is 6.0 ml which exceeds the 2 ml limit set in legislation. Additionally, the nicotine concentration displayed on the product is 60 mg/ml which exceeds the limit of 20 mg/ml set in legislation. The product also does not have an information leaflet. Nicotine containing liquid is acutely toxic in high concentrations and volumes. Its inhalation can cause adverse effects, contraindications and present an increased risk to at risk groups such as pregnant women. Additionally, when an information leaflet is not provided consumers cannot make informed choices regarding the safe use of the product.

The product does not comply with the requirements of the Tobacco Products Directive.

The angle between the backrest and the horizontal surface is too small. As a consequence, with the backrest in the most reclined position, the swing may tilt close to the horizontal surface, causing the baby to hit its head. Furthermore, the plastic of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose, causing the child to suffocate.

The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 16232.
