Alert number **[A12/00610/22](#)**

Product **Passenger car**

---

Risk type **Injuries**

**Improper welding on the rear axle can cause the thrust rod to come loose from the rear axle bracket. This may cause the vehicle to swerve in response to the road surface or the vehicle may skid sideways during emergency braking. This leads to loss of control over the vehicle, increasing the risk of an accident.**

**The product does not comply with the Regulation on the approval and market surveillance of Motor Vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.**
