Product

Children's make-up

Risk type

Chemical

The make-up in the product contains an excessive amount of chromium VI, lead and nickel (measured values up to: 6.8 mg/kg, 1.6 mg/kg and 1.4 mg/kg, respectively). Chromium (VI) is sensitising and may trigger allergic reactions. Lead is harmful for human health as it accumulates in the body (and may damage the unborn child). Nickel can cause skin irritation and induce sensitisation or elicit allergic responses.

The product does not comply with the Cosmetic Products Regulation.

Product **Passenger car**

Risk type **Injuries**

Improperly welded rear auxiliary frame can affect the durability of the auxiliary frame and its stability due to engine load and vibration during long-term driving. Due to the increase in engine movements the fuel-hose may leak, which can lead to loss of control of the vehicle, increasing the risk of an accident.

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.
