Decision 1/CMP.6

The Cancun Agreements: Outcome of the work of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol at its fifteenth session

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling Article 3, paragraph 9, of the Kyoto Protocol,

Also recalling Article 20, paragraph 2, and Article 21, paragraph 7, of the Kyoto Protocol,

Further recalling decisions 1/CMP.1 and 1/CMP.5,

Recognizing that Parties included in Annex I (Annex I Parties) should continue to take the lead in combating climate change,

Also recognizing that the contribution of Working Group III to the Fourth Assessment Report of the Intergovernmental Panel on Climate Change, *Climate Change 2007: Mitigation of Climate Change*, indicates that achieving the lowest levels assessed by the Intergovernmental Panel on Climate Change to date and its corresponding potential damage limitation would require Annex I Parties as a group to reduce emissions in a range of 25–40 per cent below 1990 levels by 2020, through means that may be available to these Parties to reach their emission reduction targets,

Noting the reports of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol from its sessions to date and the oral report by the Chair to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its sixth session,

Welcoming the progress achieved by the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on its work pursuant to decisions 1/CMP.1 and 1/CMP.5,

Cognizant of decision 1/CP.16 (Outcome of the work of the Ad Hoc Working Group on Long-term Cooperative Action under the Convention),

1. *Agrees* that the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol shall aim to complete its work pursuant to decision 1/CMP.1 and have its results adopted by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol as early as possible and in time to ensure that there is no gap between the first and second commitment periods;
2. *Requests* the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol to continue its work referred to in paragraph 1 above on the proposals contained in document FCCC/KP/AWG/2010/CRP.4/Rev.4;
3. *Takes note* of quantified economy-wide emission reduction targets to be implemented by Annex I Parties as communicated by them and contained in document FCCC/SB/2011/INF.1;^{1, 2}

¹ The content of the table in this information document is shown without prejudice to the position of the Parties or to the right of Parties under Article 21, paragraph 7, of the Kyoto Protocol.

² Document to be issued.

4. *Urges* Annex I Parties to raise the level of ambition of the emission reductions to be achieved by them individually or jointly, with a view to reducing their aggregate level of emissions of greenhouse gases in accordance with the range indicated by Working Group III to the Fourth Assessment Report of the Intergovernmental Panel on Climate Change, *Climate Change 2007: Mitigation of Climate Change*, and taking into account the quantitative implications of the use of land use, land-use change and forestry activities, emissions trading and project-based mechanisms and the carry-over of units from the first to the second commitment period;
5. *Agrees* that further work is needed to convert emission reduction targets to quantified economy-wide limitation or reduction commitments;
6. *Also agrees* that:
 - (a) In the second commitment period the base year shall be 1990, or the base year or period determined in accordance with Article 3, paragraph 5, of the Kyoto Protocol, for the purpose of calculating assigned amounts; in addition, a reference year may be used by a Party on an optional basis for its own purposes to express its quantified emission limitation and reduction objectives as a percentage of emissions of that year, that is not internationally binding under the Kyoto Protocol, in addition to the listing of its quantified emission limitation and reduction objectives in relation to the base year;
 - (b) Emissions trading and the project-based mechanisms under the Kyoto Protocol shall continue to be available to Annex I Parties as a means to meet their quantified emission limitation and reduction objectives in accordance with relevant decisions of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol as may be further improved through decisions to be adopted based on the draft text contained in chapter III of document FCCC/KP/AWG/2010/CRP.4/Rev.4;
 - (c) Measures to reduce greenhouse gas emissions and to enhance removals resulting from anthropogenic land use, land-use change and forestry activities shall continue to be available to Annex I Parties as a means to reach their quantified emission limitation and reduction objectives, in accordance with decision 2/CMP.6;
 - (d) The global warming potentials used to calculate the carbon dioxide equivalence of anthropogenic emissions by sources and removals by sinks of greenhouse gases listed in Annex A for the second commitment period shall be those provided by the Intergovernmental Panel on Climate Change and agreed upon by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol together with other methodological issues based on the draft text contained in chapter IV of document FCCC/KP/AWG/2010/CRP.4/Rev.4;
 - (e) Further work on the consideration of information on potential environmental, economic and social consequences, including spillover effects, of tools, policies, measures and methodologies available to Annex I Parties shall continue on the basis of proposals contained in chapter V of document FCCC/KP/AWG/2010/CRP.4/Rev.4.

Decision 2/CMP.6

The Cancun Agreements: Land use, land-use change and forestry

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Affirming that the implementation of land use, land-use change and forestry activities included under the provisions of the Kyoto Protocol shall be consistent with the objectives and principles of, and any decisions taken under, the Convention and its Kyoto Protocol,

1. *Affirms* that the principles contained in paragraph 1 of decision 16/CMP.1 continue to govern the treatment of land use, land-use change and forestry activities;
2. *Agrees* that the definitions of forest, afforestation, reforestation, deforestation, revegetation, forest management, cropland management and grazing land management shall be the same as in the first commitment period under the Kyoto Protocol;
3. *Requests* the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol to consider, in time for possible inclusion in the second commitment period of the Kyoto Protocol, if appropriate, whether a cap should be applied to emissions and removals from forest management and how extraordinary occurrences (called force majeure) whose severity is beyond the control of, and not materially influenced by, a Party can be addressed;
4. *Also requests* each Annex I Party to submit to the secretariat, by 28 February 2011, information on the forest management reference level¹ inscribed in appendix I to this decision, including any update to replace the value, in accordance with the guidelines outlined in part I of appendix II to this decision;
5. *Decides* that each submission referred to in paragraph 4 above shall be subject to a technical assessment by a review team in accordance with the guidelines outlined in part II of appendix II to this decision, and that outcomes of the technical assessment will be considered by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its next session;
6. *Requests* the secretariat, subject to the availability of funds, to organize the technical assessments referred to in paragraph 5 above;
7. *Also requests* the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol to continue its consideration of definitions, modalities, rules and guidelines relating to land use, land-use change and forestry activities under the Kyoto Protocol for application in the second commitment period.

¹ The forest management reference levels inscribed in appendix I to this decision were set transparently, taking into account the following: (a) removals or emissions from forest management as shown in greenhouse gas inventories and relevant historical data; (b) age-class structure; (c) forest management activities already undertaken; (d) projected forest management activities under a 'business as usual' scenario; (e) continuity with the treatment of forest management in the first commitment period; (f) the need to exclude removals from accounting in accordance with decision 16/CMP.1, paragraph 1. Points (c), (d) and (e) above were applied where relevant. The forest management reference levels also took into account the need for consistency with the inclusion of carbon pools. Reference levels including and excluding 'force majeure' should be provided.

Review procedures

General procedures

18. Review teams will meet in a single location to perform a centralized review of all forest management reference level submissions.

19. Each submission will be assigned to a review team responsible for performing the technical assessment in accordance with procedures and time frames established in these guidelines.

20. Each review team will provide a thorough and comprehensive assessment of the forest management reference level submission and will under its collective responsibility prepare a report.

21. The review process will be coordinated by the secretariat. Review teams will be composed of land use, land-use change and forestry review experts selected from the roster of experts. Participating experts will serve in their personal capacity and will be neither nationals of the Party under review nor funded by that Party.

22. Review teams will work under the same rules as those set out in paragraphs 9 and 10 of the annex to decision 22/CMP.1.

Composition of the review teams

23. Review teams should be made up of at least three land use, land-use change and forestry experts. The secretariat shall ensure that in any review team one co-lead reviewer shall be from an Annex I Party and one co-lead reviewer shall be from a non-Annex I Party. The secretariat will select the members of the review team with a view to achieving a balance between experts from Annex I Parties and non-Annex I Parties.

Timing

24. In order to facilitate the secretariat's work, each Party should confirm to the secretariat, by the end of February 2011, its active experts on the land use, land-use change and forestry roster of experts who will be able to participate in the review of forest management reference levels in 2011.

25. The secretariat should forward all relevant information to the review teams in good time before the start of the review.

26. Prior to the review, the review team should identify any preliminary questions requiring clarification by the Party, as appropriate.

27. The review should take place no later than by the end of May 2011 and be conducted according to the indicative timings set out in paragraphs 28 to 32 below. The Party being reviewed may interact with the review team during the review of its submission in order to respond to questions and to provide additional information as requested by the review team.

28. The review team may seek any additional clarification from the Party no later than one week following the review. This may include technical recommendations to the Party on the construction of its reference level. The Party is to provide any required clarifications to the review team no later than five weeks following the request and may also submit a revised reference level in response to the technical recommendations of the review team.

29. The review team will prepare a draft report and make it available to the Party no later than eight weeks following the review. The report should include a short summary.

30. The Party will have three weeks to respond to the draft report of the review team.

31. If the Party does not agree with the findings in the draft report, in responding to the Party's comments the review team will seek advice from a small group of experienced reviewers to be convened by the secretariat, which will consider comparability across Parties.

7. *Authorizes* the international transaction log administrator to deny or suspend national registry operations with the international transaction log in the event of non-payment of the fee by the Party, although not earlier than four months after the beginning of the relevant calendar year, subject to at least two reminders having been given to the Party and consultation having taken place with the Party concerned prior to the final reminder;
