Product

**LED lighting chain**

Risk type

**Chemical  
Environment**

The white cable the product contains excessive amounts of short chain chlorinated paraffins (SCCPs) and of bis(2-ethylhexyl) phthalate (DEHP) (measured values: up to 5.1 % and 8.4 % by weight, respectively). SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. DEHP is a phthalate which may harm the health by causing possible damage to the reproductive system.

The product does not comply with the Regulation on persistent organic pollutants (POP Regulation) nor with the REACH Regulation.

Product **Baby blanket**

Risk type **Choking  
Entrapment  
Strangulation**

A child's fingers may become trapped in loops and threads that have become loose or unraveled from the product. The threads can twist around parts of the body causing entrapment of the fingers and toes or can get wrapped around the neck of the child causing strangulation. The child can also put these in the mouth and choke.

The product does not comply with the requirements of the General Product Safety Directive (GPSD).

Category **Childcare articles and children's equipment**

Type **Consumer**

Description **A pale grey/green blanket (label states 81 cm x 101 cm) consisting of two types of strands woven together in a crisscross pattern. The blanket is edged with loose strands forming a fringe around the perimeter. No age specified but the product label states: "Baby Blanket" and "for kids".**

Product **Bath fizzer**

Risk type **Chemical Choking**

Due to the characteristic appearance, form, colour and size, this product may be mistaken for foodstuff. Small parts can easily detach from it, in particular if the product is bitten. A small child may then put it in the mouth and choke on them. Additionally, due to the product's composing ingredients, the small parts ending in the digestive tube can damage the health of the child.

The product does not comply with the Cosmetic Products Regulation and the requirements of the Food Imitating Directive.

Product

**Baby swing**

Risk type

**Injuries**

**The lateral swing angle of the swing is too large, and there is no protection from a restraining system. The baby can therefore fall from the swing and be injured.**

**The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 16232.**

Category

**Childcare articles and children's equipment**

Type

**Consumer**

Product

**Baby swing**

Risk type

**Injuries**

The width of the straps of the restraint system is too short. The crotch straps can therefore tear away easily, causing the baby to fall and be injured.

The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12790.

Alert number **[A12/01249/22](#)**

Product **Baby swing**

Risk type **Injuries**

The angle between the backrest and the horizontal surface of the swing is too small. As a consequence, with the backrest in the most reclined position, the swing may tilt close to the horizontal surface, causing the baby to hit its head. The locking mechanism on the product does not engage automatically. As a consequence, the product may fold and lose stability, causing the baby to fall down and hit its head and suffer injuries.

The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 16232.
