Product **Soft toy**

Risk type **Choking
Damage to sight
Injuries**

The LEDs of the toy are too powerful and may cause eye damage. The seams come easily apart, making the LEDs and the filling accessible. Sharp edges of the LEDs may cause injury while ingestion of the filling may cause choking.

The product does not comply with the requirements of the Toy Safety Directive, nor with the European standards EN 71-1 and EN 62115.

Product

Portable power station

Risk type

Electric shock

The electrical insulation as well as the clearance /creepage distances between the primary and accessible secondary circuits are not sufficient. In addition, the input protective earth is not connected to output protective earth, hence continuity of protective earth does not occur. The user could receive an electric shock from accessible (live) parts.

The product does not comply with the requirements of the Low Voltage Directive nor with the European standards EN 62040-1, EN 60950-1, and EN 62368-1.

Category

Electrical appliances and equipment

Type

Consumer

Description

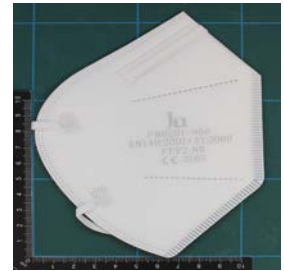

Portable power station with battery, AC input, AC socket output and multiple DC outputs (USB). The product can be used as an Uninterrupted Power Source (UPS). Product also sold online.

Packaging description

The product is sold in a printed cardboard box.
