 Product Mobile phone for explosive atmospheres

Risk type Burns  
Injuries

The device fails to meet the design requirements for "Intrinsic safety" required for use in potentially explosive atmospheres. The power output is excessive and the battery is not sufficiently protected. This increases the risk of ignition in explosive atmospheres.

The product does not comply with the requirements of the ATEX Directive nor with the European standard EN 60079-11.

Category Explosive atmospheres equipment

Type Professional

Description Mobile phone for use in potentially explosive atmospheres. The product is also sold online.

Alert number A12/01395/22

Product Passenger car

---

Risk type Fire  
Injuries

Moisture could enter the signal acquisition and actuation module. In this case, a short circuit may occur and as a result the risk of fire increases. Moreover, this moisture may cause the exterior lighting at the rear of the vehicle to fail, the rear backseat may unintentionally fold, and the rear-view camera may not be available, increasing the risk of an accident.

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Product Passenger car

Risk type Injuries

The airbag gas generator may be affected by chemical changes due to degradation over time due to heat cycling and exposure to moisture. In the event of a steering wheel airbag deployment, the excessive internal pressure may cause the inflator body to rupture and metal fragments may pass through the cushion material causing injury to the occupants.

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Product	Toy gun set

Risk type Chemical  
Choking

The suction cups of the projectiles can be easily detached. A child can put them in the mouth and choke. The kinetic energy of the projectiles is too high which could cause injuries, especially to the eyes. In addition, the product contains dibutyl phthalate (DBP) (measured value: up 7.9% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system.

The product does not comply with the requirements of the Toy Safety Directive, nor with the REACH Regulation or with the European standard EN 71-1.

Category Toys

Type Consumer

Description Toy set consisting of 3 plastic toy pistols, 1 toy rifle, 6 pieces of 60 mm and 3 pieces of 120 mm long projectiles with a suction cup.
