Product Particle filter mask

Risk type Health risk / other

The total inward leakage of the mask is too high, and the particle/filter retention of the material is insufficient (measured values: as low as 90%). Consequently, the product does not fulfil the health and safety requirements; thus, even if combined with other recommended measures, it may not properly protect.

The product does not comply with the Personal Protective Equipment Regulation nor with the European standard EN 149.

Category Protective equipment

Type Consumer

Description Protective respiratory filtration half-face mask. Product sold online, in particular via Amazon.

Packaging description	White cardboard packaging containing 20 pieces, marked with FFP2 and with the CE marking printed on.

Alert number A12/01657/22
 Product Laser engraving machine

Risk type Damage to sight

The product does not have a protective housing that prevents access to laser radiation, no manual reset nor key-operated main switch, and lacks an emission warning device. In addition, the laser does not switch off in the event of vibration or impact and the engraving programme continues to run autonomously after interruption and restoring of power supply. Furthermore, the product is mis-labelled as Class 3 laser but should be considered as a Class-4 laser, lacks a machine type plate, and has no operating instructions in the national language. Users' or bystanders' eyes may be directly exposed to the laser light, resulting in damage to the eyesight.

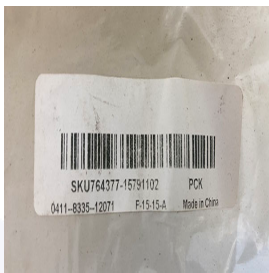

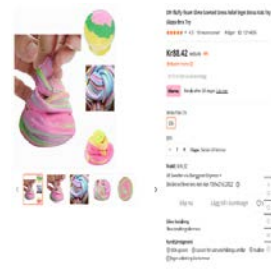

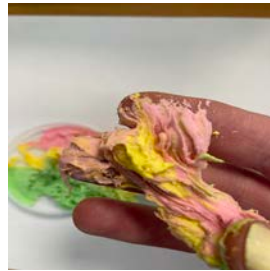

The product does not comply with the requirements of the Machinery Directive nor with the European standards EN 60825-1 and EN 60825-4.

Category Machinery

Type	Consumer
Description	Laser engraving machine with a rectangular frame of an aluminium alloy, with a laser head which can work a surface of approximately 30 cm x 30 cm. The machine lacks a casing. Product sold online, in particular via AliExpress with the online identifier 1005003189584181.

Product	Toy bow and arrow set

Risk type Choking
Injuries

The suction cups may easily become detached from the arrows. A child may put the small parts in the mouth and choke. Furthermore, the arrows could be shot without the suction cup on the end, with very high kinetic energy. This could cause injuries, especially to the eyes.

The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.

Category Toys

Type Consumer

Description Toy bow and arrow set, with a height of 57 cm, a width of 25 cm, and a thickness of 5 cm. Model KiK9822, made in 2021, has a green colour, while models KiK9895 and KiK9896 (both made in 2022) are respectively blue and green. Product sold online.
