Alert number A12/01716/22

Product Passenger car

Risk type Injuries

Due to improper fitting, the seat belt retention function may not be effective, increasing the risk of injury in the event of an accident.

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Category Motor vehicles

Type Consumer

Description Passenger car

Brand Ford

Name Kuga

EC-type approval/model DFK

Alert number A12/01673/22
 Product All terrain vehicle

Risk type Injuries

The position light and flasher electrical harnesses in the front fenders may be loose and rub on the tyre, leading over time to a short circuit. This can cause the engine to stop while driving, without the possibility of restarting it. This in turn will cause the stability system, which includes the anti-lock braking system not to function, creating a risk of an accident.

The product does not meet the Regulation on the type-approval and market surveillance of two- or three-wheel vehicles and quadricycles.

Category Motor vehicles

Type Consumer

Description Four-wheeled all terrain vehicle of Model years 2019 to 2021 and specific serial numbers of Model years 2022- 2023.
