Product Extension lead

Risk type Electric shock
Fire

The product has earthing contacts on the sockets and plug but lacks an earthing circuit, and the mains are not properly attached to the product. This can lead to electric shocks. Moreover the product packaging indicates 10 - 16 A but the wiring is too thin, causing the extension lead to overheat when power appliances of more than 2500 W are plugged in.

The product does not comply with the requirements of the Low Voltage Directive.

Category Electrical appliances and equipment

Type Consumer

Description Orange extension cord with 3 mains, each with earth contact. The product is 3 m long, with the following markings on the cable: 10-16A 220-250V /50-60 Hz.

Packaging description	Transparent plastic bag with cardboard closure.

 Product Lighting chain

Risk type Electric shock

The conductors in the wires are too thin and the distance between the plug and the first lamp is too short. The control device cap can be easily removed. Also, the product is not protected against moisture but is recommended for both indoor and outdoor use. A user could consequently touch live parts and receive an electric shock.

The product does not comply with the requirements of the Low Voltage Directive nor with the European standard EN 60598.

Category Lighting chains

Type Consumer

Description Lighting chain with non-replaceable white 200 LED lamps, with a rated voltage of 230 V -250 V and a rated frequency of 50 Hz. The product indicates an IP20 ingress protection against dust and water and is recommended for both indoor and outdoor use.

Packaging description Red cardboard box.

Product Multifunctional toy

Risk type Chemical
Choking
Damage to hearing

The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP)(measured values up to 3.08% and 2.59% by weight, respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive systems. The toy releases small parts which a child may put in the mouth and choke on. Finally, the sound pressure level is too high (measured value up to: 82.4 dB) which can lead to temporary or permanent loss of hearing.

The product does not comply with the REACH Regulation nor with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.
