Is the product counterfeit? Counterfeit

Product description A flying plastic doll designed as the character Elsa in 'Frozen'. Product sold online.

Risk type Chemical
Environment

Risk description The black plastic in the cable, solder in a connection to battery and solders on the PCB in the product have excessive concentrations of lead (measured value: 0.27%, 60% and 53% by weight respectively). Lead poses a risk to the environment. Moreover, the solder in a connection to the battery has an excessive concentration of cadmium (measured value: up to 0.24% by weight). Cadmium bio-accumulates and poses a risk to the environment. The plastic material in the cable has excessive concentrations of bis(2-ethylhexyl) phthalate

(DEHP) and dibutyl phthalate (DBP) (measured values: up to 2.26% and 1.43% by weight, respectively). These phthalates may harm the health by possibly causing damage to the reproductive system. The plastic material in the cable has an excessive concentration of short chain chlorinated paraffins (SCCPs) (measured value: up to 0.5 % by weight). SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

Product sold online, in particular via Cdiscount.

Risk type Choking

Risk description The pillow is placed around the baby's neck, the bottle is held in position by a piece of elastic or a pouch and the baby is positioned on its back to feed itself without the assistance of a caregiver holding the bottle and controlling the feed. In this situation, the baby will not be able to control the flow of milk and the milk will continue to flow even if the baby is not swallowing. This can lead to choking. Choking can be silent and a baby will not have the dexterity or cognitive behaviour to otherwise raise the alarm.

Legal provisions (at EU level) and European standards against which the The product does not comply with the requirements of the General Product Safety Directive.

Packaging description Cardboard box

Brand HΛETIN

Type / number of model SKUA09114

Product description Small digital radio. The product is sold online, in particular via Wish.

Risk type Chemical
Environment

Risk description The solders in the product have an excessive concentration of lead and cadmium (measured value: up to 80.6% and 0.74 % by weight, respectively). Moreover, the plastic material in the black cord has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and short chain chlorinated paraffins (SCCPs) (measured value: up to 12.8 % and 4.2 % by weight, respectively). Lead and cadmium pose a risk to the environment. DEHP may harm the health of children, possibly causing damage to the reproductive system. SCCPs persist in

the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive) nor the Persistent Organic Pollutants (POP) Regulation.
