Product Flying spinner

Name Flying spinner

Packaging description Cardboard box

Brand Flynova Pro

Type / number of model 988/42080207306990

Product description A small handheld flying spinner toy made of plastic.

Risk type Chemical
Environment

Risk description A solder in the plastic of the USB cable has excessive concentrations of lead (measured value up to 70% and 0.16% by weight, respectively). Lead poses a risk to the environment. The solder in the plastic of the battery has an excessive concentration of cadmium (measured value: up to 0.28% by weight). Cadmium bio-accumulates and poses a risk to the environment. The plastic material of the cable has

an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 1.85% and 0.79% by weight, respectively). These phthalates may harm the health by possibly causing damage to the reproductive system. The product has an excessive concentration of short chain chlorinated paraffins (SCCPs) (measured value up to 1.08% by weight). SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Persistent Organic Pollutants (POP) Regulation nor with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).

Product Magnetic pen

Packaging description Aluminium box.

Brand Unknown

Product description Magnetic pen consisting of different magnetic parts which can be detached and re-assembled, together with the steel balls provided with the pen, into different structures. Product sold online, in particular via Joom.

Risk type Choking
Injuries

Risk description The toy contains small parts (balls) with a high magnetic flux. A small child may put them in the mouth and choke. In addition, if a child swallows them, they could attract one another and cause intestinal blockage or perforation.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 71-1.
