

Alert number A11/00121/23

Notifying country The Netherlands

Product category Chemical products

Type Consumer

Product Multi-purpose cleaner

Name De allround reiniger

Packaging description The product is packed in a white plastic tube and contains 300 grams of the product

Brand Puroxx

Batch number 20225203

Barcode 9006186002631

Product description Multi purpose cleaner for daily use which may also be used as a daily cleaner for greasy hands. The product label contains claims such as dermatologically tested, skin-friendly, vegan, protective, I am green. Product sold online.

Risk type Chemical

Risk description The product is classified and labelled as corrosive to the skin but announced as skin friendly and dermatologically tested. This announcement can mislead a consumer to consider it safe and use it without precautions, causing chemical burns.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the requirements of the Regulation on classification, labelling and packaging of substances and mixtures (CLP) nor with the Cosmetic Products Regulation.

Packaging description Black cardboard box

Brand FURY

Type / number of model NFU-1198

Barcode 5901969411638

Product description Optical gaming mouse. Product sold online.

Risk type Chemical  
Environment

Risk description The solders in the product have an excessive concentration of lead (measured value: up to 52 % by weight). The plastic material of the cable has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and short chain chlorinated paraffins (SCCPs) (measured values: up to 1.45 %, 0.28 % and 2.6 % by weight, respectively). Plastics in the product have an excessive concentration of polybrominated diphenyl ethers (PBDE) (measured value: 0.9

% by weight). Lead poses a risk to the environment. DEHP and DBP pose a risk to human health and the environment. PBDE might cause neurodevelopmental behavioural defects and is very persistent and bio-accumulative, posing a risk for the environment and human health. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply
