Product Skin lightening product

Name Lait Clarifiant, Lightening Body Lotion, Leite Clareador

Packaging description White plastic bottle covered with coloured film and with a purple flip-top lid. Nominal quantity 500 ml. Product sold online.

Brand Clair-Liss Génial

Batch number LB4218

Barcode 6181100322521

Product description White cream, perfumed

Risk type Chemical

Risk description The product has an excessive concentration of kojic acid (measured value up to: 1.659 g/100g). Kojic acid can affect the balance of the thyroid system and also induce skin sensitisation, when used at high concentrations on hand and face, or if used on large areas of skin. The product contains clobetasol propionate (measured value up to 10 g/g), which is

forbidden in cosmetic products. This corticosteroid should be applied only if medically prescribed. Exposure to it could cause skin irritation and may lead to endocrine problems. Moreover, the product also contains 2-(4-tert-butylbenzyl) propionaldehyde (BMHCA), (measured value: 0.018% by weight), which is forbidden in cosmetic products. BMHCA may harm the reproductive system, may harm the health of the unborn child and may cause skin sensitisation.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Cosmetic Products Regulation.

Product Electrothermal footwarmer

Name Elektrisk fotvärmare

Packaging description Cardboard box

Brand Meiyesen

Type / number of model 6987579854569

Product description Beige electrothermal footwarmer

Risk type Chemical  
Environment

Risk description The plastic material of the product has excessive concentrations of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), diisobutyl phthalate (DIBP) and short chain chlorinated paraffins (SCCPs) (measured values up to 6.0%, 0.02%, 1.3% and 5.2% by weight, respectively). The solders in the product have an excessive concentration of lead (measured value up to 35 % by weight). These phthalates may harm the health by causing possible damage to the reproductive system. Lead poses a risk to the environment. SCCPs persist in the environment, are toxic to aquatic

organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive) neither with the Persistent Organic Pollutants (POP) Regulation nor with REACH Regulation.

EC-type approval/model	e6*2018/858*00144*00, e6*2018/858*00144*01.
Production dates	2.11.2021 - 7.08.2023
Company recall code	23SD-130
Product description	Passenger car, frame Code: bZ4X (XEAM10, YEAM15), model year: 2021~2023.
Risk type	Injuries
Risk description	The communication between the data communication module (DCM) and the electronic control unit (ECU) may fail. This can result in the absence of display of certain indicators and

errors of the interface between the ECU and the turn signals, hazard lights and pre-collision system, increasing the risk of an accident.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.
