Notifying country	Portugal
Product category	Motor vehicles
Type	Consumer
Product	Passenger car
Name	CX-60 (KH)
Brand	Mazda
EC-type approval/model	e13*2018/858*00255*04, e13*2018/858*00255*06, e13*2018/858*00255*07.
Production dates	28.09.2022 - 21.06.2023
Company recall code	AP049A
Product description	Mazda CX-60 (KH) M Hybrid (T3R/H3T) vehicles.
Risk type	Injuries
Risk description	The engine may fail to start while driving or at a stop, due to inappropriate failure detection logic of the Powertrain Control Module (PCM). Moreover, if the engine is restarted ("push button start" is pressed) in a short period (approx. 8 seconds) after IG OFF, the relay circuit of Mild Hybrid battery may not be connected due to inappropriate start-up instructions from PCM. The fail-safe may activate, making the shift position secured in "N" range, and the vehicle may result in

“impossible to drive” condition. In addition, the images of the front-, side-, and rear-view cameras may no longer appear on the centre display monitor due to improper processing logic in the view monitor camera control module. Loss of camera images when in reverse and/or using the 360° monitor can increase the risk of an accident.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Regulation on the approval and market surveillance of Motor Vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Risk type Chemical
Environment

Risk description The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 10.6% by weight) and short-chain chlorinated paraffins (SCCPs) (measured values: up to 2.2 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bioaccumulate in wildlife and humans, posing a risk to human health and the environment.

Legal provisions (at EU The product does not comply with the REACH Regulation nor with the Regulation on persistent organic pollutants (POPs).

Alert number A12/00027/24

Notifying country	Germany
Product category	Motor vehicles
Type	Consumer
Product	Passenger car
Name	G-Class
Brand	Mercedes-AMG
EC-type approval/model	e1*KS18/858*00011*00
Production dates	17.4.2020 - 1.12.2023
Company recall code	3591005, 3591006
Product description	Mercedes-Benz G-Class 463 series, model 4x4 ² ,
Risk type	Injuries
Risk description	Cracks may develop in the rear axle transmission housing, which could lead to transmission oil leaking onto the road, posing a risk to the following traffic. Moreover, subsequent fracturing of the housing could lead to an interruption of the power transmission on the rear axle, causing a loss of wheel guidance and propulsion without warning, increasing the risk of an accident.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Product Disposable electronic cigarette

Name UPPO Tobacco

Packaging description Sealed plastic package placed in a cardboard box.

Brand Unknown

Type / number of model BAR S

Barcode 4778003100510

Product description Disposable e-cigarette with nicotine containing tobacco-flavoured liquid.

Risk type Chemical

Risk description The product contains an excessive amount of nicotine containing liquid (measured value 2.3 ml). This can lead to the accidental consumption of a high dose of nicotine. Nicotine is acutely toxic and can endanger the user's safety, notably if the product comes into contact with the skin or is ingested.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the requirements of the Tobacco Products Directive.

Product description Choker necklace with a heart pendant. Product sold online.

Risk type Chemical
Environment

Risk description The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 4% by weight), of short-chain chlorinated paraffins (SCCPs) (measured values: up to 3.6 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bioaccumulate in wildlife and humans, posing a risk to human health and the environment. Moreover, the metal parts of the product has an excessive concentration of cadmium (measured value up to 0.02 % by weight). Cadmium is harmful to human health because it accumulates in the body, can damage the kidneys and bones

and it may cause cancer.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the REACH Regulation nor with the Regulation on persistent organic pollutants (POPs).
