Company recall code 24SD-022

Product description Passenger car

Risk type	Injuries
Risk description	The design of the accessory immobilizer is not robust enough. It allows the vehicle to be in 'Ready ON' mode even when no match is found between the vehicle and its key but will switch the vehicle to 'Ready OFF' after. It can happen while driving, which will stop the car and increase the risk of an accident.
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Name Galaxy, Kuga, S-Max

Brand Ford

EC-type approval/model e13*2007/46*2188*00-*12, e13*2001/116*0185*43-*44

Production dates Galaxy / S-Max: 04.08.2020 - 01.03.2023
Kuga: 23.07.2019 - 20.04.2023

Company recall code 23S27

Product description Passenger car

Risk type Fire

Risk description The cooling airflow is insufficient, causing the oil channel to be blocked. This leads the connecting rod bearing to seize and the connecting rod to tear off. This can deteriorate the combustion engine, resulting in a rupture in the engine oil tank or engine block, creating an oil tank leak. This increases the risk of fire under the bonnet.

Legal provisions (at EU) The product does not comply with the Regulation on the

level) and European standards against which the product was tested and did not comply

Product Soother holder

Name Lion Dummy Clip Pack of 2 Dummy Chain 360 Degrees
Dummy Holder Safari of Angels Dummy Clip

Packaging description Small plastic zip bag where the front is clear and the back is silver.

Brand Safari of Angels

Type / number of model X001J60PE3

Product description Baby soother holder. Product sold online, in particular via Amazon (ASIN: B07T511QF1).

Risk type Choking
Strangulation

Risk description The product contains easily detachable small parts that a child can put in their mouth and choke on. Moreover, the garment fastener and attached lion head component of the soother holder contain no ventilation holes. A child can put this component into their mouth and as there would not be enough air to pass around it, the child may choke. The soother holder has also a long string which can cause a

strangulation risk.
