Product Climbing arch / Rocking chair

Name LUOTO

Brand Fitwood

Barcode 6430061242929

Product description Climbing arch that could also be used as a rocking chair. A mattress (KAURA) can be added by choice. Product sold online.

Risk type Injuries  
Strangulation

Risk description A child can get pinching or crushing injuries if they get their fingers or toes between the floor and the runner when sitting in the "rocking chair" position. In addition, there are protruding corner posts that could cause children to get stuck with clothes. This can lead to a strangulation risk. Additionally, when the arch is in the climbing position, the distance between the rungs poses a risk of hanging or strangulation, as children could fall through, get their head stuck, and be unable to free themselves.

The product does not comply with the requirements of the Toy

Product category	Motor vehicles
Type	Consumer
Product	Passenger car
Name	LX600, Land Cruiser, Tundra
Brand	Lexus and Toyota
EC-type approval/model	No approval number VJA300 (Land Cruiser) VJA310 (LX600) VXKA75 (Tundra)
Production dates	LX600: 08.07.2021 - 25.11.2022 Land Cruiser: 26.04.2021 - 10.11.2022 Tundra: 28.02.2022 - 28.02.2022
Company recall code	24SD-071
Product description	Passenger cars. Model Year: 2021~2022. Countries of production: Japan and United States.
Risk type	Injuries
Risk description	The vehicles can contain crankshaft main bearings that have not been properly cleared of machining debris during manufacturing. This contamination can cause the bearings to fail. This can lead to engine knocking, rough running, inability

to start, or stalling. If the engine stalls while driving, the sudden loss of power increases the risk of accidents and injuries.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Company recall code KBM

Product description Passenger cars.

Risk type Injuries

Risk description The propellant used in the driver airbag inflator can degrade when exposed to very high temperatures and levels of humidity. If activated after an impact, excessive internal pressure may cause the inflator to burst, and metal fragments could pass through the cushion material causing injury to occupants.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Product	Passenger car
Name	Countryman
Brand	Mini
EC-type approval/model	UMX e1*2018/858*00370*
Production dates	18.01.2024 - 28.03.2024
Company recall code	0051900500
Product description	Passenger car
Risk type	Injuries
Risk description	In the production process, the armrest support bracket may have been incorrectly screwed to the rear left or right door panel. In the event of an accident, the armrest bracket can become detached, damaging the thorax airbag in the deployment area. This increases the risk of injuries to the vehicle's occupants.

Product Fireworks

Name Katan Special #3

Packaging description Cardboard box.

Brand Katan B.V.

Batch number 2463-F2-340-S003004

Product description Fireworks of category F2, 100-shots compound.

Risk type Burns  
Fire  
Injuries

Risk description	The product has duds with fuse, children can pick these up and ignite them causing injuries and/or burns. Moreover, the fireworks may burst or release burning material too close to the ground, causing fire and/or burns and eye injuries to bystanders. Additionally, the product has an inadequate fuse delay (too long), which may cause users to approach the firework too early or not allow them enough time to reach a safe distance. In addition the product emits flames for an excessive time, causing burns to bystanders and risk of fire.
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The product does not comply with the requirements of the Pyrotechnics Directive nor with the European standard EN 15947.
Country of origin	People's Republic of China

Product description Fireworks of category F2, 90-shots compound.

Burns

Risk type	Damage to hearing Fire Injuries
Risk description	The sound pressure level is too high (measured values up to 124 dB). Consequently, it can cause damage to hearing. Moreover, the product has duds with fuse, children can pick these up and ignite them causing injuries and/or burns. It may also burst or release burning material too close to the ground, causing fire and/or burns to bystanders. In addition some articles caught fire after 120 seconds. This can cause serious injuries when fireworks residues may ignite. In addition the product emits flames for an excessive time, causing burns to bystanders and risk of fire.
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The product does not comply with the requirements of the Pyrotechnics Directive nor with the European standard EN 15947.

Product	Fireworks
Name	Eagle Glitter Master
Packaging description	Cardboard box
Brand	World´s Toughest Fireworks
Type / number of model	598
Batch number	2463-F2-300-598004
Product description	Fireworks of category F2, 192 shots compound.
Risk type	Burns Damage to hearing Fire Injuries
Risk description	The sound pressure level of the fireworks is too high posing serious injuries to hearing of user and bystanders. The article has too many duds with and without fuse, children can pick these up and ignite them causing injuries and/or burns. It also expels excessive quantities of burning pieces outside the safety distance, which can cause injuries and/or burns to the

user or bystanders or could cause a fire.
