Company recall code H478

Product description Passenger car. Model year: 2021 - 2025

Risk type Injuries

Risk description An oil leak from the turbocharger oil feed pipe can result in oil deposits onto the road. This can create slippery sections, increasing the risk of accidents and injuries especially for two-wheeled vehicles.

Legal provisions (at EU level) and European standards against which the The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Production dates	17.07.2017 - 14.08.2021
Company recall code	241039 KRE23-12-P130-CK RJ
Product description	Passenger car.
Risk type	Fire
Risk description	The oil supply line and hose assembly on the turbocharger's left-hand side may degrade due to heat from the exhaust manifold. This can cause oil leaks, and if oil comes into contact with hot exhaust parts, it could trigger a fire in the

engine compartment.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.
