Product: Soother-holder

Name: Pacifier holder

Risk type: Choking, Entrapment, Strangulation

Category: Childcare articles and children's equipment

Brand: Les rêves d'Anais, Trixie

Type / number of model: 05-073 Models : owl, clouds, diablo, flock, balloon, pebble, cats, squares, freckles, crocodiles, ...

Risk level: Serious risk

The soother-holder is too long and could get wrapped around the child's neck, causing strangulation. The clip of the soother-holder can easily break, generating small parts. A small child may put these parts in the mouth and choke. In addition, there is a gap near the clip where the child's fingers could be trapped. The product does not comply with the relevant European standard EN 12586.

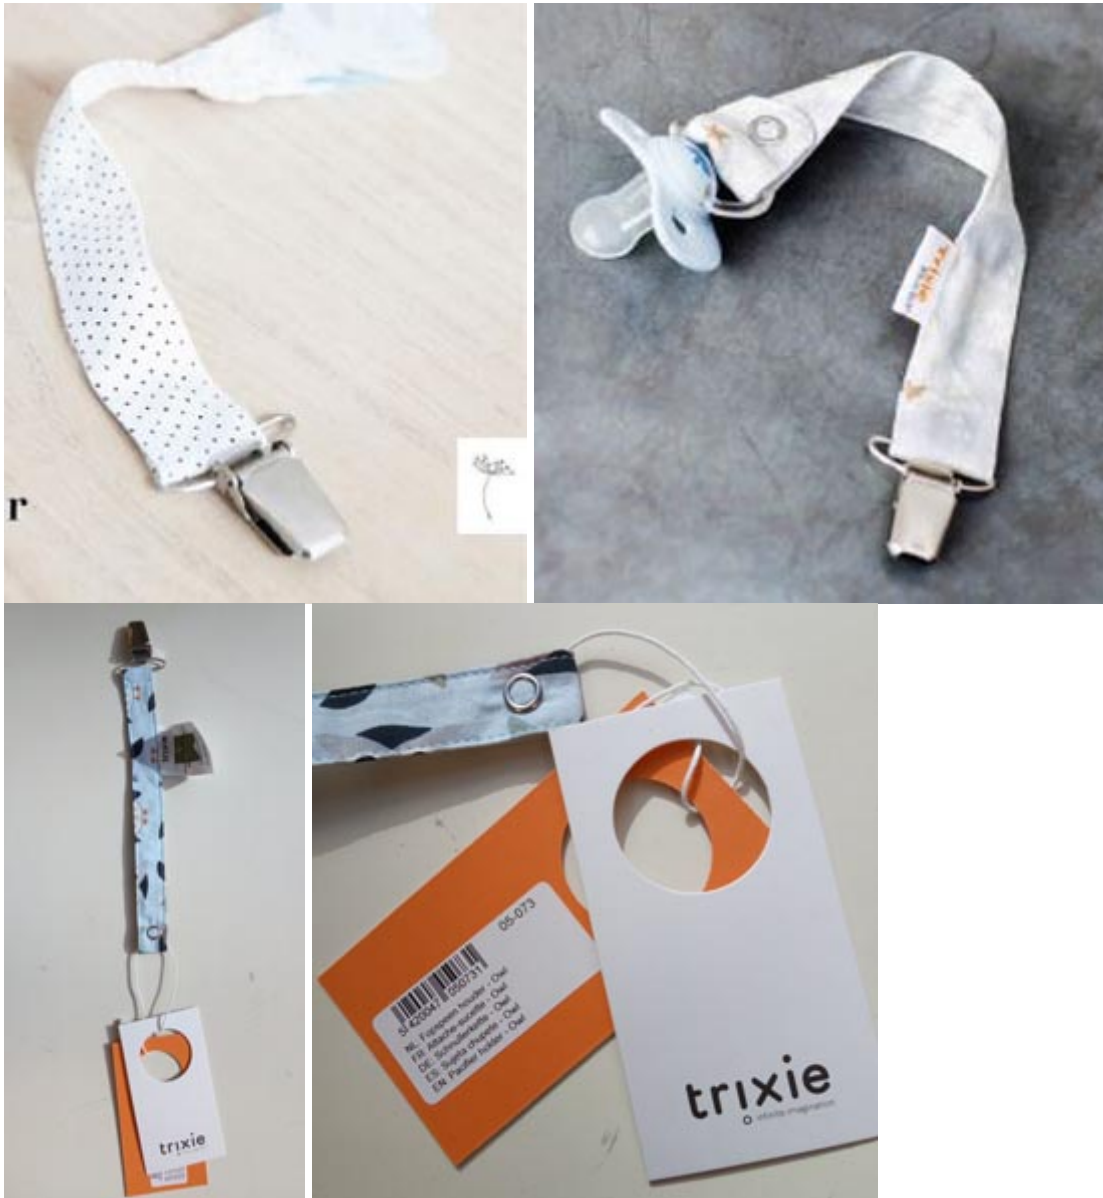

Measures taken by economic operators: Recall of the product from end users (By: Distributor)

Description: Soother-holder made of different fabric designs with a metal clip. No packaging, but a cardboard label is attached to the product.

The propellant mixing ratio in certain seat-belt pre-tensioner igniters may be incorrect. As a result, in the event of an accident where the front seat-belt pre-tensioners are activated, the pre-tensioners would not provide the restraint performance required if the igniter did not ignite as intended. This could put the occupants at a greater risk of injury.
