A12/1036/14

Denmark

Category: Toys

Product: Babies' activity toy

Brand: Out of the blue

Name: Wooden worm - Trælarve

Type/number of model: Art. no.: 76/5169

Batch number/Barcode: Barcode: 4029811279135

OECD Portal Category: 86000000 - Toys / Games

Description: A toy composed of wooden balls. Each section of the toy is held together with elastic so that it can be bent and folded. The product is packed in a transparent plastic bag.

Country of origin: Germany

Choking

The product poses a risk of choking because it can break and release small parts that can easily detach and be swallowed by small children.

The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.

Voluntary measures:
Recall of the product from end users

Description: A battery-operated, plastic soap bubble gun in the form of a fish, packaged in a blister pack. The packaging has various indications in English.

Country of origin:
China

Chemical, Damage to sight

The product poses a chemical risk because the plastic cable contains di-(2-ethylhexyl) phthalate (DEHP) above the permitted levels and releases an excessive amount of lead (measured values: DEHP 4.7% by weight; lead 98 mg/kg).

According to the REACH Regulation the phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited in toys or childcare articles that can be placed in the mouth by children.

The product poses a risk of damage to

Ban on the marketing of the product and any accompanying measures

sight because the fixed light blue LED used does not meet the requirements of Class 1. In addition, the required warnings, advisory messages and safety information on the product and instructions are missing or do not appear in the official language of the country.

The product does not comply with the requirements of the Toy Safety Directive, the relevant European standards EN 62115, EN 71-1 and EN 71-3 (version EN 71-3:1994, as the toys concerned were seized by the authorities before 20 July 2013 and hence the chemical requirements of Directive 88/378 applied).
